

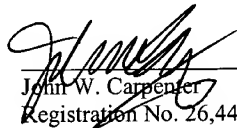

FIG. 420 is a vertical sectional view through a substrate containing sections which were formed by the process steps illustrated in FIGS. 414-419.

REMARKS

Applicant preliminarily amends the above-identified application in accordance with the forgoing amendment. Inadvertently "Fig. 419" was omitted from the drawings. "Fig. 419" was described on page 17 of the specification.

Therefore, applicants have amended respectively Figs. 420 and 421 to be "Fig. 419" and "Fig. 420". Thus the forgoing amendment should obviate the December 21, 2001 "Notice of Omitted Item(s) in a Nonprovisional Application", a copy which is attached hereto.

Respectfully submitted,

John W. Carpenter

MARKED-UP VERSION

The Specification has been amended as follows:

FIGS. 414-420 419 are perspective views for representing the process for fabricating a substrate having three different types of dimensional walls; and

FIG. 421 420 is a vertical sectional view through a substrate containing sections which were formed by the process steps illustrated in FIGS. 414-420 419.

FIG. 414-420 419
